PRESENTED BY  
 Alan Stevenson

Alan is a native resident of Amarillo, TX. And a graduate from Texas A & M University. Currently Alan is employed by the Oklahoma Department of Transportation where he has been developing and implementing Oklahoma's ITS program since 1997 in the arenas of telecommunications, fiber optics, federal contracts and grants, white papers and applications for grant monies to continue Oklahoma's ITS program.

- Some of these activities include:
- Statewide ITS
  - SAFE-T-Systems
  - Oklahoma 511
  - Amber Alert
  - ATIS (Advanced Traveler Information Systems)

**BACKGROUND & LOCATION INFO**

The concept behind ITS is to get more capacity out of existing pavement instead of building more pavement.

Intelligent Transportation Systems (ITS) represents the next step in the evolution of the nation's entire transportation system. It involves the latest in computers, electronics, communications and safety systems. These advancements can be applied to our vast transportation infrastructure of highways, streets and bridges, as well as to a growing number of vehicles, including cars, buses, trucks and trains.

**CORPORATE SPONSORSHIP IS ONCE AGAIN OPEN.  
 PLEASE CONTACT GORDON JOHNSON OR CODY HOLCOMB TO
