Job Description

The Project Manager / General Superintendent will be a key role in leading the engagement and communication with the field operations team, preconstruction team and customer. This individual will be as comfortable on the job site working with our field teams as well as working with our customer's project engineers, superintendents or project managers. This leader will assure that our field teams are working safely, efficiently and with known objectives and be a catalyst for keeping these teams working seamlessly with our customers.

Skills and Abilities

- Working knowledge of construction plans, specifications and geotech reports
- Contracts, budgets, change orders and construction schedules (> 3 years)
- Excellent oral and written skills
- Good documentation and reporting skills
- Excellent problem-solving abilities
- Proven ability to effectively manage a field construction team to meet schedules and budgets (> 5 years)
- General knowledge of construction equipment (hydraulics, mechanics, etc.)
- Past operation of construction equipment a plus
- Working knowledge and proficiency of MS Word and MS Excel
- Minimum of Construction or Civil Engineering Degree (BSCE)
- Spanish speaking a plus
- A CDL driver's license a plus
- Ability to do overnight travel (25-45%)

Personality Traits Desired for our Team

- Knowledgeable and highly skilled in their job
- Humble in attitude
- Leads by serving others and setting good examples
- Respectful of others yet honest in communication
- Positive and energetic in contributing to the FSGC team
- A healthy sense of humor
- Customer service minded

Compensation And Benefits

- Salary commensurate with experience
- Full Benefits package available

Physical Demands & Work Environment:

The physical demands and work environment characteristics described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
